➢ Hands on experience on Core Java, Servlet, JSP, spring, spring boot, Angular, JPARepository, RestApi,, Micro Services Basic, Hibernate, **Graphql, GRPC, Camunda , Liquibase**, JavaScript, JQuery, bootstrap.
➢ Hands on experience on **Eclipse, IntelliJ, STS and RAD** IDE tool for the development of java projects.
➢ Hands on experience in **Tomcat** web servers.
➢ Experience in **Postgresql**, and **MySQL** database.
➢ Hands on experience in SVN **Repository,**Git **Repository,Jira with Bitbucket and GIT/HUB** ➢ Cohesive team worker, having strong analytical, problem solving and interpersonal skills.
➢ Adaptive to learn new technologies. ➢ Experience in methodologies like AgileScrum.

Tools & Technologies

Programming Languages	CoreJava,j2EE,Collection,JDBC
WEB/Application Servers	Apache9.0v
UI Technologies	Html,Css,BootStrap
J2EE Framework	SpringCore ,SpringBoot,Hibernate
Database	MySQL8/PostgresQl
Database Tools	SQLYog ,WorkBench,PGAdmin
ORM and Data Access	Hibernate
Configuration Management	SVN subversion,GIT,GITLAB,Bitbucket
Web Technologies	JSP,JSTL Servlet, SpringMVC
IDE	Eclipse, STS4, Intellij,
Others	Maven, LOG4J,XML Parsing,Web Services ,Restful,Rest API,Jira,Postman,Checkmarx, Blackduck for security. Familiar with JDK8, Altair, Kreya, Camunda, DBeaver.
Domains Worked	Finance(Banking Domain)/CBS/Core Banking.

Personal Skills:

- Ability to deal with people diplomatically, willingness to learn & work in team.
- Adaptable to new environment, with ability to get along with people.
- Very positive and optimistic view towards Life.
- Passionate to work in Interesting Area.

Work Experience :

- Worked as Software Engineer at IdigiCloudtech Pvt Ltd. From **June 2023** to till now**.**
- Worked as Software Engineer at SAKSOFT Pvt Ltd. From **June 2022** to March **2023.** ➢ Worked as Software Engineer at Mosambee From **OCT 2021** to **June 2022.**

Project#1:

Role : Java Developer   **Team size**: 6   **Title:** CASA
overview of project:

The CASA (Current Account and Savings Account) Module streamlines account management, allowing users to efficiently open, manage, and monitor their accounts with real-time transaction processing and features like balance inquiries and fee calculations. Built with Java and Spring Boot, it enhances operational efficiency and user engagement while ensuring high security and reliability.

Technology used: Java 7and 8/17, Hibernate/JPA, Spring boot/GraphQl/GRPC ,CAMUNDA, Postgress ,Tomcat 9.0

Responsibilities*: -*Requirement Analysis & Design, Implementing GraphQl Services and All.

Project#2:

Role : Java Developer   **Team size**: 8   **Title:** Payments
overview of project: The **Payments (MS)** handles inbound and outbound payments, ensuring seamless transaction processing. It   includes compliance validation for account numbers and countries, verifying proper formats and checking against   global sanctions lists. This system reduces fraud risk and ensures adherence to international regulatory standards.
Technology used: Java 7and 8/17, Hibernate/JPA, Spring boot/GraphQl/GRPC ,Postgress ,Camunda **Liquibase,** Tomcat 9.0

Responsibilities*: -*Requirement Analysis & Design, Implementing GraphQl Services and All.

Project#3:

Role : Java Developer   **Team size**: 4   **Title:** CNP **overview of project:**

CNP application work as an API, In this app there is an API which is use for the send collect request of the amount, and send otp or the notification of the collected amount, And check Status of the transaction, And refund, And process the transaction by the way UPI,BQR,WALLET,EMI,CC etc.
Technology used: Java 7and 8, Hibernate, Angular, Spring boot ,MySQL 8.0,Apache Tomcat 9.0

Responsibilities*: -*Requirement Analysis & Design, Implementing rest Services and All.

Project#4:   **Title: Notification**
Engine Role : java Developer   **Team size: 4 overview of project:**
Notification Engine basically work as check the transaction which is coming from the device.Here we have check the transaction details by device serial number and device id using the api. And we have send the notification by MQTT, PUSY and FIREBASE.
Technology used: Java 7and 8, jdbc template, SPRING BOOT ,MySQL 8.0,Apache Tomcat 9.0
Responsibilities: -Requirement Analysis & Design, Implementing rest Services and All.

Project#5:   **Title: SMSPay**

Role: java Developer

overview of project: SMSPAY application work as a MVC application. By this application we can put card details and pay the amount, this app allow multiple card like VISA, RUPAY, MASTERCARD etc. And EMI integration is also allow for the diff PG like FSSPG,GPCYBERPG,GPMIGSPG,KOTAKPF etc.

Technology used: HTML,CSS,JS **,**Java 7and 8,Hibernate, JPA,Spring MVC, JSTL, SPRING BOOT ,MySQL 8.0,Apache Tomcat 9.0**.**

Responsibilities: -Requirement Analysis & Design,Designing a creative page using web-based technologies Implementing rest Services and All.

Project#6:   **Title:** IDMANAGEMENT

Role:FullStack Dev

Team size: 1 overview

of project:

In IDMANAGEMNT application we can Manage the ID for the particular bureau which is already we have. Like as Reset ID, New id, Forgot,New mail etc .

Technology used: Java 7and 8,Spring ,Hibernate ,PGADmin,Apache Tomcat 9.0,j**.**sp html css

Responsibilities: -Requirement Analysis & Design, Designing a creative page using web-based technologies Implementing rest Services and All.

Professional Education

• BCA. Pune University

• H.S.C HR Inter college

• S.S.C. KIC College

I hereby confirm that the information provided above is accurate and true to the best of my knowledge and belief.
